# Primary Line of Business: Disinfection Services and Products

## Company Description

Degree Primero Maintenance & Cleaning EST. is one of the specialized companies for Disinfection Services in Riyadh & Dammam.

The Company has grown to achieve commanding heights in a very short period of time in Disinfection sector by providing commendable services. This had been possible with the constant support of our unwavering team of committed & trained individuals, specialized to provide top notch services for utmost customer satisfaction. In addition to our services we are invested in protecting our clients property and we strive to do our best to ensure this is done through a sustainable, honest and fruitful partnership.

## Our Mission & Vision

### Our Mission:

To provide top quality disinfection services to promote safer breathing environment with 100% customer satisfaction.

### Our vision:

Our vision is to be the best Disinfection (sterilization) service provider in KSA, catering to both residential & commercial entities by 2021. We intend to keep the customer satisfaction as our top priority by rigourously training our employees to keep in tune with the latest technological developments. This would help us to maintain high quality standards while educating the people about taking the right precautions to prevent the viruses & bacteria.

# Featured services and products

## Disinfection Service:

We deliver fast response and professional and legally compliant service for your needs. Our Qualified technicians are equipped with necessary personal protective equipment (PPE), respiratory protective equipment and specialist disinfection equipment to work safely and effectively.

We use Bio Safe – hospital grade disinfectants which are recommended Disinfectants by \*EPA (United States Environmental Protection Agency) to fight against SARS-COV-2 (Covid-19 Family).

It is applied by using spraying machines which spreads and covers the entire surface regardless of shape size & form. The EPA recommended products we use are harmless, breathable, Non-toxic, Eco-friendly, Non flammable & Odorless Disinfectants.

The disinfectant remains active after multiple cleaning sessions providing added biosecurity which leaves a thin layer after application that remains active for days for killing viruses & germs. We are able to provide manual high-level disinfectant cleaning that targets the key touch points like Door knobs, water taps, computers & other important areas with high touch intensity.

## Products

### Vital oxide disinfectant spray:

A Handy Vital Oxide 100ml spray bottle Eco friendly & Hospital Grade Disinfectant for your daily use.

It is EPA & NSF Registered ®

### The key features are as follows:

- No Rinse required
- Non Toxic
- Odorless
- PH : 8.5
